

CHESS CAKE

Linda Shane's

First Layer

- 1 box yellow cake mix (use a regular size, not one of the small cake mixes)
- 1 egg
- 1 stick margarine or butter

Mix and pat into oblong pan.

Second Layer

- 1 8-oz. package cream cheese
- 2 eggs
- 1 box powdered sugar

Mix and spread on top.

If desired, you can spread a layer of pecans on the cake before you put on the topping.

Bake at 350 for 40 mins until really golden brown on top.

Because the cake is very moist, I like to cut it into bars and place on a plate loosely covered so it will get a little firmer on the edges.
